

FOODSAFE DIRECT CONTACT GREASE 3H SPRAY

Product Code: F-CGH400 (400ml)

Foodsafe Direct Contact Grease 3H Spray is designed for use in food and pharmaceutical environments where direct food contact is inevitable. It can also be used as a release agent on bearings, blades, mixers, slicers, mincers, seals, ovens, loaf pans and other hard surfaces to prevent adherence.

- ✓ Good sealing properties against water ingress.
- ✓ Pro-longed component life.
- ✓ Excellent EP and anti-wear properties.

DIRECTION OF USE:

Foodsafe Direct Contact Grease 3H Spray should not be mixed with any other lubricants to avoid cross-contamination. All traces of previous lubricants should be removed before application. Use in a well-ventilated area.

This product contains no allergens, genetically modified ingredients, and does not contain nut oil or nut oil derivatives.

Foodsafe Direct Contact Grease 3H Aerosol is manufactured using NSF 3H registered grease.

Data Sheets are updated frequently. Please ensure that you have a current copy. This Datasheet summarises at the date of issue our best knowledge of the health and safety hazard information of the product, and in particular how to safely handle and use the product in the workplace. Since the manufacturer/supplier cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this Datasheet in the context of how the user intends to handle and use the product in the workplace. If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this company. Our responsibility for product as sold is subject to our standard terms and conditions, which are available on request.
