

TECHNICAL DATA

FOODSAFE SILICONE SPRAY

Product Description

FOODSAFE SILICONE SPRAY is a high viscosity, pearlescent, smooth, tacky, and waterproof silicone fluid in an aerosol package. FOODSAFE SILICONE SPRAY is NSF H1 registered for use where incidental food contact may occur and is compatible with most seal materials. It is resistant to many reactive chemicals that may be encountered in "clean" industries such as food and beverage, pharmaceuticals and personal care plants. FOODSAFE SILICONE SPRAY is ideal for use as a general lubricant.

Applications

Widely used in food and poultry plants operating under the Federal Meat and Poultry Products Inspection Program's Food Safety and Inspection Service (FSIS)

FOODSAFE SILICONE SPRAY is a silicone fluid for use in the food, beverage, pharmaceutical, personal care products, printing, electric, electronic and other industries where it's retentive, water repellent and non-gumming characteristics make it a universal-type lubricant. FOODSAFE SILICONE SPRAY, formulated with the highest quality ingredients, meets NSF H1 and FDA requirements for materials that may have incidental contact with food as defined under Title 21 CFR, 178.3570.

Features and Benefits

- *NSF H1 Registered*
- *Chemically Inert* - *Will not affect rubber, plastic or metal*
- *Chemically resistant* - *Unaffected by mild acids, alkalis, alcohol and glycol*
- *Waterproof* - *Ideal for wet conditions and water displacing*

This product contains no genetically modified ingredients and does not contain any nut oil or derivatives.
