

TECHNICAL DATA SHEET

RUST VETO® 943

DEWATERING RUST PREVENTATIVE FLUID

RUST VETO® 943 is a solvent deposited type rust preventive fluid with excellent dewatering properties. RUST VETO® 943 evaporates and leaves a thin and dry protective film on the applied surfaces. Drying time will vary according to film thickness and protection time required.

Applications

RUST VETO® 943 is suitable for rust protection of manufactured components or parts as well as metal parts of machinery.

RUST VETO® 943 can be applied by dipping, spraying or brushing any dried parts and also parts passed coolant during machining process.

Recommendation For Use

Hydrocarbon solvents such as white spirit, alkaline solutions or any common degreasing techniques, can remove film layer on the applied surface.

Health, Safety And Handling

Please consult the Safety Data Sheet (SDS) for information on storage, safe handling and disposal. The conditions or methods of handling, storage, use and disposal of the product are beyond our reasonable control - we assume no liability for any ineffectiveness of the product or any injury or damage, arising out of or in connection with these conditions.

Benefits

- Rapid drying properties.
- High rust protective & dewatering performance.
- Highly resistant to salt water and humidity.
- Easy to remove by any types of hydrocarbon solvents.
- Variety protection periods available.
- Excellent demulsibility prolongs changing oil period.

Typical Physical Properties

PROPERTY	TYPICAL VALUE	UNIT
Product Appearance	Transparent Amber fluid	Visual
Specific Gravity	0.81	[ASTM D4052]
Flash Point	59	°C [ASTM D 93]
Film type	Oily Film	Visual
Film Thickness	3	µm
Film Coverage	80	m ² /L
Protection Indoors	3	months
Protection Outdoors	Not recommended	months
Viscosity, Kinematic @40°C	2.1	cSt [ASTM D 445]
